The Central Coast Plateau Sustainable Farming Project

Soil Carbon Seminar 'Carbon Myth Busters'

David Waters, Soil Scientist with NSW Department of Primary Industries, will present 'Carbon Myth Busters', a seminar developed by leading soil scientists to help farmers manage their response to the soil carbon debate.

Issues covered relate to soil carbon in agriculture, including:

- Influence of farm management practices on soil carbon
- Carbon cycles, soil carbon fractions
- Effects of climate and soil type on soil carbon
- Organic carbon amendments
- Whole-farm carbon dynamics
- The Emissions Trading Scheme – how it is shaping

Date: Monday, 2 March 2009

Time: 9 am to 12.30 pm (morning tea & lunch provided)

**Where: Mangrove Mountain Memorial Golf Club,
Hallards Road, Central Mangrove**

**This session is free but for catering purposes please RSVP by 26 February to
Carolyn Jenkinson on 4348 1979 or 0419 627 972**
